LONDON, April 27,-The Pall Mail Gazette today contains a most sensational article headed "Rumors of an Attempt to Shoot Gladstone," the type used in headlines being the largest in use for that purpose. The paper says that the alleged attempt upon the prime minis-ter's life was made while Mr. Gladstone was walking at midnight last night through St. James' park on his way to his home in Downing street. The story is based upon the fact that a man who is now in custody on the charge of firing a revolver in a public thoroughfare had in one of his pockets a note-book con-

recent movements of Mr. Gladstone It has been learned that Mr. Gladstone, who attended a dinner party last night, was walking to his home about the time the man who fired the revolver was arrested. He saw nothing of the occurrence, and no one now believes that any attempt was made to shoot him. When the shooter was arraigned in the Bow street police court the policeman who arrested him stated that the man had discharged the revolver in the horse guards' parade near Downing street. He evidently intended to shoot the officer. An examination of the note. the officer. An examination of the note book revealed the fact that it contained book revealed the fact that it contained a mass of ravings against Irish home rule, amid which was a suggestion that the murder of Mr. Giadstone would be justifiable. Upon this slender foundation the report of the attempted murder of Mr. Gladstone was constructed.

The man's name is William Townsend. Among some of the entries in Townsend's note-book were these:

"The Irish home rule bill has passed its second reading by a full majority, including the cur Saunderson. Talking does not convert. Now is the time for action. I might willfully murder you. Would nothing of the kind be justified? Now, to prove it, what says Sir Henry James? See Gladstone's speech of last night. What says Saunderson?"

The court instructed the jailer to guard the prisoner with great care.
